

## EverGuard® TPO GAF T-Top Vent

### Description:

Save time and labor costs with easy-to-install EverGuard® TPO T-Top Vents. GAF factory-built accessories reduce risk of leaks and callbacks, and help create a uniform aesthetic.

### Application:

T-Top TPO flashing is factory-welded reinforced membrane and has a 3 inch weldable flange. The T-shaped hood is made SMP-painted steel, closely matching the color of the TPO, and is designed with ends or "ears." T-Top vents are not for use in dryer exhaust applications. All T-Top vents come standard with an 1/8" galvanized wire mesh and are available in two standard sizes: 4" (102 mm) and 6" (152 mm).

### Product Information:

EverGuard® TPO T-Top Vents are composed of reinforced 60 mil TPO membrane and SMP-painted steel. Custom colors are available. (Contact your local rep for details.) The vents are part of a comprehensive line of EverGuard® TPO accessories that GAF manufactures using a proprietary formulation designed for use with EverGuard® TPO single-ply membrane.
