

EverGuard® TPO and EverGuard Extreme® TPO

GAF SplitPipeBoot

Description:

Increase efficiency when covering pipes with factory-built EverGuard® and EverGuard Extreme® TPO Split Pipe Boots. These single-ply roofing system preformed accessories provide roofing contractors with an effective, easy-to-install detail. GAF manufactures these and other accessories from its proven, durable EverGuard® and EverGuard Extreme® TPO single-ply reinforced membrane. GAF TPO accessories can help you reduce installation costs, risk of leaks, and callbacks, while helping you create a uniform look.

Application:

Preformed accessories may be installed on mechanically attached, fully adhered, or self-adhered EverGuard® and EverGuard Extreme® TPO roofing systems, using conventional techniques. See published application and specifications manual for detailed instructions.

Product Information:

Extreme® TPO Split Pipe Boots are constructed from EverGuard® or EverGuard Extreme® reinforced 45-mil membrane. Three standard sizes are available, and you can contact your local GAF representative for custom sizes. The split design lets you wrap them around pipes and conduit where closed boots cannot be used.
