

EverGuard® TPO-Coated
GAF SpeedTite™ Drain

Description:

EverGuard® TPO-Coated SpeedTite™ Roof Drains are part of the range of GAF single-ply roofing system accessories that provide contractors with easy-to-install, factory-built details.

- Reduce installed costs by up to 25% compared to field-fabricated accessories
- Factory-built accessories reduce risk of leaks and callbacks
- Uniform aesthetic look

Application:

These drains are designed for use with GAF EverGuard® and EverGuard® Extreme TPO single-ply membranes. They can be installed using conventional techniques on mechanically attached, fully adhered EverGuard® and EverGuard® Extreme TPO roofing systems. See published application and specifications manual for detailed instructions.

Product Information:

Mechanical seal and drop-in-ready packaging help make the EverGuard® TPO-Coated SpeedTite™ Roof Drain one of the fastest installed drains on the market. It offers built-in vortex breaker technology for improved flow performance.

- GAF SpeedTite™ mechanical seal (patent pending) can be made watertight in seconds without using any tools
- Installs in half the time of other insert drains, enhancing productivity
- Hand-tightened seal activator creates a symmetrical watertight connection
- One-piece seamless body provides strength and durability
- Extra-large flange allows positive attachment of roof flashing membrane
- Heavy-duty cast aluminum strainer dome and clamping ring
- Exceeds ANSI/SPRI RD1 for back flow prevention for improved flow performance
- TPO-coated flange for hot-air weld flashing

Specifications
