

Master Flow[®] Roof Louver RT65 Plastic Square-Top

Remove excess heat and moisture from your attic
and protect your roof system from premature deterioration

- Improve energy efficiency by reducing attic heat and your summer air-conditioning load
- Limit the growth of harmful mold and mildew
- Minimize peeling of paint inside and out

Master Flow[®] Roof Louver RT65 Plastic Square-Top

Benefits:

- **Allows heat and moisture to escape** the attic on roofs with limited ridge line or when replacing existing roof louvers
- **20% more venting capacity** (vs. typical 50 sq. in. NFA roof vents [32,258 mm²]) with 60 sq. in. of NFA per vent (38,710 mm²)
- **Durable high-impact resin construction** with UV inhibitors to help resist fading
- **Popular colors** to complement your finished roof (see specifications)
- **Pre-drilled nail holes** help make installation easy
- **Eligible accessory product** in the Attic Ventilation category for GAF residential enhanced warranties¹

Balanced Attic Ventilation:

Balanced attic ventilation means there's an equal amount of air entering it as there is exiting it. The amount of exhaust ventilation at or near the ridge must **never** exceed the amount of intake ventilation at or near the soffit. A minimum of 1 sq. ft. of net free

ventilation for every 300 sq. ft. of attic floor space is recommended, but always consult local building codes to ensure compliance with local ventilation requirements. For more information, visit gaf.com/ventcalculator

How Much Do I Need?

Calculate the total square footage of your attic floor space and then review the chart below for how many **Master Flow[®] Roof Louver RT65s** are needed:

Total Attic Square Footage	Recommended Number of RT65 Roof Louvers	Minimum Intake Ventilation (Net Free Area in Sq. In.)
0-1000	4	240
1001-1500	6	360
1501-2000	8	480
2001-2500	10	600
2501-3000	12	720

Note: Chart above based on 1:300 rule.

Product details:

Nominal Specifications

- 60 sq. in. of NFA per vent (38,710 mm²)
- Opening Size: 11-3/4" x 10-3/4" (298 mm x 273 mm)
- Height: 4" (102 mm)
- For roof pitches 3:12 and greater
- Colors available: Brown, Black, Weathered Wood, and Gray

Code Approvals & Standards

- Texas Department of Insurance Product Evaluation RV-61
- CSA

1. Warm, moist air escapes attic through the **Master Flow[®] Roof Louver RT65**
2. Fresh air enters attic through the intake vents at or near the soffit

¹ Although Master Flow[®] Attic Exhaust Vents count as an eligible accessory product in the GAF Attic Ventilation category, they are covered by either the *Master Flow[®] Powered Ventilation Products Limited Warranty* or *Master Flow[®] Ventilation Products Limited Warranty*, depending on the product.
