

# Master Flow<sup>®</sup> Versa Cap Adjustable Pipe Cap

Weather-resistant protection for rooftop flues, hot stacks,  
and B-vents

- Adjustable design for convenient installation
- Resists rust that can detract from the look of your roof
- Provides a neat, finished appearance

# Master Flow® Versa Cap Adjustable Pipe Cap

## Benefits:

- Includes a screwdriver-adjustable clamp to help ensure a secure fit
- Aluminum construction for rust and corrosion resistance
- Positive draft design helps avoid risk of clogging
- Large selection of sizes available to fit pipes with outside diameters ranging from 2 7/8" up to 10 7/8" (see spec chart below)

Loosen or tighten the screws as needed to adjust cap size for appropriate pipe diameter.

## Product details:
