

Master Flow[®] Wi-Fi Attic Vent Roof Mount

Help remove excess heat and moisture from your attic
and protect your roof system from premature deterioration

- Master Flow QuickConnect[™] Wi-Fi Technology provides wireless vent control¹
- High-efficiency motor with Humidistat/Thermostat and Timer
- Available in roof and gable mount models

Master Flow® Wi-Fi Attic Vent Roof Mount

Roof Mount
model #ERV5QCT

Benefits:

- **Built-in Master Flow QuickConnect™ Wi-Fi Technology** allows you to wirelessly control the vent from virtually anywhere (with an internet connection) via your smartphone or tablet¹
- **Adjustable Humidistat/Thermostat and Timer** offers added control and efficiency when managing heat and moisture in your attic
- **A single login to the Master Flow QuickConnect™ Ventilation Control App** allows you to conveniently control one or multiple Master Flow® Wi-Fi-enabled vents — excellent for vacation homes, rental properties, etc.¹
- **High-efficiency PSC motor design**
- **Galvanized steel construction** for long-lasting durability
- **Compact size and hemmed dome** for a sleek finished look on the roof
- **Passes the 110 mph wind-driven rain test** under controlled laboratory testing per TAS 100-(A)
- **Eligible accessory product** in the Attic Ventilation category of GAF residential enhanced warranties²

Balanced Attic Ventilation:

Balanced attic ventilation means there's an equal amount of air entering it as there is exiting it. The amount of exhaust ventilation at or near the ridge must **never** exceed the amount of intake ventilation at or near the soffits. A minimum of 1 sq. ft. of net

free ventilation for every 300 sq. ft. of attic floor space is recommended, but always consult local building codes to ensure compliance with local ventilation requirements. For more information, visit gaf.com/ventcalculator and see the chart below.

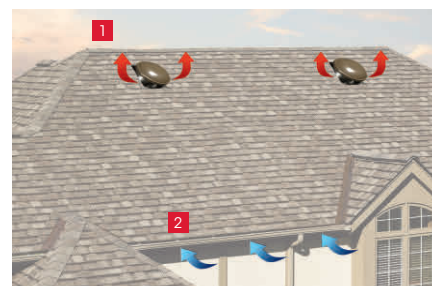

Product details (Roof Mount unless noted):

Nominal Specifications

- For roof pitches 2:12 – 12:12
- Opening size: 15" (381 mm)
- Heavy-duty internal screen
