

Deck-Mounted Commercial Domes

Description:

VELUX® deck-mounted commercial skylights mount directly to the roof deck and bring natural light into any space. These fixed skylights provide excellent durability and safety with various acrylic and polycarbonate glazings. When purchased through GAF, they are eligible for 20-year warranty coverage.

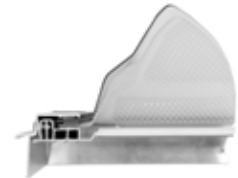

Features and Benefits:

- Rigid PVC inner frame with integrated wicking system allowing for the removal of interior condensation
- Dual durometer coextruded gasket provides positive seal to prevent air and water infiltration, and thermally broken frame ensures proper insulation

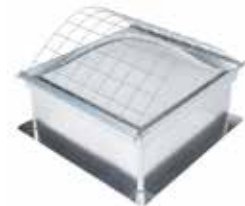

- Standard installations for 0 – 60 degree (0" – 20") slopes
- Screen or bar systems available to provide fall protection during and long after installation
- UL-tested smoke-out vents are designed to shrink and fall out in the event of a fire
- Eligible for up to 20 years of coverage under GAF NDL (no dollar limit) warranty

Contact your territory representative for ordering details, product selection and measurement, or other information.

Designed for durability, insulation, and moisture protection.

Bar or screen systems provide fall protection.

Dynamic dome skylight provides more daylight than traditional domes.

Deck- or curb-mounted options available.
