

## SAFETY DATA SHEET 2256

Rev. 4, 25 September 2023

### 1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: OlyBond500 Canisters, Part 1

Supplier: GAF  
1 Campus Drive  
Parsippany, NJ 07054  
USA  
Phone: 1-877-GAF-ROOF

24-hour Emergency Response Number:  
Chemtrec: 800-424-9300

Product Use(s): One component of a two-component polyurethane system

### 2. HAZARDS IDENTIFICATION

Classifications: Acute Toxicity, Inhalation: Hazard Category 4  
Respiratory Sensitization: Hazard Category 1  
Skin Sensitization: Hazard Category 1  
Skin Irritation: Hazard Category 2  
Eye Irritation: Hazard Category 2B  
Specific Target Organ Toxicity, Single Exposure: Hazard Category 3  
Specific Target Organ Toxicity, Repeated Exposure: Hazard Category 2  
Gases Under Pressure: Compressed Gas  
Physical Hazards Not Otherwise Classified: None  
Health Hazards Not Otherwise Classified: None

Symbols: Health Hazard  
Exclamation Point  
Gas Cylinder

Signal Word: Danger

Hazard Statements: May be harmful if inhaled.  
May cause allergy or asthma symptoms or breathing difficulties if inhaled.  
May cause respiratory irritation.  
May cause an allergic skin reaction.  
Causes eye and skin irritation.  
May cause damage to the respiratory system and/or skin through prolonged or repeated exposure.  
Contains gas under pressure; may explode if heated.

Precautionary Statements: Do not breathe mist, spray, or vapors.  
Use only outdoors or in a well-ventilated area.  
In case of inadequate ventilation wear proper respiratory protection.  
Wear protective gloves and eye protection.  
Wash hands and forearms thoroughly after handling.  
Contaminated work clothing must not be allowed out of the workplace.

**IF INHALED:** remove person to fresh air and keep comfortable for breathing. If experiencing respiratory symptoms or if you feel unwell, call a doctor or Poison Control Center.

## SAFETY DATA SHEET 2256

Rev. 4, 25 September 2023

Precautionary Statements: (continued) **IF ON SKIN:** Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If skin irritation or rash occurs, get medical advice/attention.

**IF IN EYES:** Rinse cautiously with water for at several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.

Get medical advice/attention if you feel unwell.

Protect from sunlight. Store in a well-ventilated place.

Store locked up in a well-ventilated place. Keep container tightly closed.

Dispose of contents/container in accordance with applicable regulations.

Other Hazards None known

### EMERGENCY OVERVIEW

Overexposure to components of this product by inhalation may cause respiratory irritation, asthma-like symptoms, and/or respiratory sensitization.

Skin contact may cause irritation and/or allergy-like symptoms, and eye contact may cause irritation. Avoid skin and eye contact, using proper personal protective equipment as needed. See Section #7 for recommendations on proper handling and work practices, and Section #8 for recommendations on personal protective equipment.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

<u>Ingredient</u>	<u>CAS Number</u>	<u>Percentage</u>	<u>Impurities</u>
4,4'-Methylenediphenyl Diisocyanate	101-68-8	25-50	None known
Diphenylmethane Diisocyanate, Isomers and Homologues	9016-87-9	>50	None known
Trans-1,3,3,3-Tetrafluoroprop-1-ene	29118-24-9	10-25	None known

### 4. FIRST AID MEASURES

Eyes: Hold eyes open and flush with lukewarm water for at least 15 minutes. Seek immediate medical assistance.

Skin: Remove contaminated clothing. Wash affected areas with soap and water for at least five minutes. If irritation persists or a rash occurs, seek medical attention. Launder or dry-clean clothing before reuse.

Ingestion: DO NOT induce vomiting. If the subject is conscious, wash mouth with water. Seek immediate medical assistance. Do not attempt to give anything by mouth to an unconscious or convulsive person.

## SAFETY DATA SHEET 2256

Rev. 4, 25 September 2023

Inhalation: If signs and symptoms of respiratory toxicity are observed, remove subject from area and seek immediate medical attention. Keep the subject warm and at rest. If necessary, administer oxygen or perform artificial respiration if necessary and qualified personnel are available to do so.

Guidance for Physician or Poison Control Center: Inhalation exposure can irritate the respiratory tract and induce respiratory sensitization. Treatment of acute irritation and bronchial constriction should be done according to symptoms. Eye contact can cause irritation. Skin contact can cause moderate irritation and may elicit an allergic response among susceptible individuals. Treat eye and skin irritation or injury according to symptoms. Extended medical treatment may be necessary for individuals exhibiting respiratory sensitization and/or skin disorders.

### 5. FIREFIGHTING MEASURES

Extinguishing Media: Water spray, carbon dioxide, dry chemical or chemical foam. DO NOT use water jet.

Fire and Explosion Hazards: The container may burst if exposed to elevated temperatures, spilling the contents. Material reacts slowly with water, releasing carbon dioxide which can cause pressure buildup and rupture of closed containers. If present in a fire or explosion, potential decomposition byproducts include carbon monoxide, oxides of nitrogen, isocyanates, hydrogen cyanide, hydrogen fluoride, and carbonyl halides.

Firefighting Instructions: If fighting a fire in which this product is present, wear a self-contained breathing apparatus with full-facepiece operated in pressure-demand or other positive pressure mode.

### 6. ACCIDENTAL RELEASE MEASURES

Methods and Materials: Absorb spilled material with a sorbent such as sawdust or calcium silicate hydrate. When absorbed, transfer to an impervious container. Neutralize with solution of 8-10% sodium carbonate and 2% liquid detergent in water (10:1 ratio of solution to product). Do not seal container, as CO<sub>2</sub> will be released. Neutralize in a well-ventilated area for at least 48 hours before sealing containers for disposal.

Personal Precautions: Avoid contact with skin, eyes, and mucous membranes. Wear appropriate personal protective equipment (see Section #8) during cleanup and decontamination. Restrict unauthorized personnel during cleanup and disposal operations.

Environmental Precautions: Prevent spills from entering sewers or contaminating soil.

### 7. HANDLING AND STORAGE

Handling Precautions: Containers should be kept tightly closed to prevent contact with moisture and other chemicals. Do not reuse empty containers for any purpose. When handling the product, avoid contact with eyes, skin,

## SAFETY DATA SHEET 2256

Rev. 4, 25 September 2023

and clothing, using protective equipment as needed. Do not use this product around children and secure it away from children.

**Work and Hygiene Practices:** To prevent ingestion or contact following use of the product, wash hands and face before eating, drinking, applying cosmetics, or using tobacco. Remove contaminated clothing and protective equipment before entering eating/drinking areas.

**Storage Precautions:** Keep containers tightly sealed during storage. Store in a dry, well-ventilated area away from sources of ignition and incompatible materials (see Section #10). Protect from heat and direct sunlight. Recommended temperature for storage is 55-85°F. (12.8-29.4°C.).

### 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

#### Exposure Limits

Ingredient	OSHA PEL	ACGIH TLV	Other
4,4'-Methylenediphenyl Diisocyanate	0.02 ppm Ceiling	0.005 ppm	
Diphenylmethane Diisocyanate, Isomers and Homologues	None	None	
Trans-1,3,3,3-Tetrafluoroprop-1-ene	None	None	800 ppm (manufacturer recommended)

#### Ingredients

##### Biological Limits:

#### Ingredient

#### Biological Limit(s)

4,4'-Methylenediphenyl Diisocyanate

No ACGIH BEIs or other biological limits

Diphenylmethane Diisocyanate, Isomers and homologues

No ACGIH BEIs or other biological limits

Trans-1,3,3,3-Tetrafluoroprop-1-ene

No ACGIH BEIs or other biological limits

#### Engineering Controls:

Use appropriate ventilation (dilution or local exhaust) whenever natural ventilation is restricted or inadequate to maintain concentrations of all components within their applicable standards.

#### Eye/Face Protection:

Wear eye protection adequate to prevent eye contact with the product. Plastic-frame spectacles with side shields, chemical goggles, or a face shield are recommended.

#### Skin Protection:

Wear protective gloves and clothing to prevent skin irritation or injury from contact with the product. Glove materials known to be effective against permeation by isocyanates include butyl rubber, nitrile rubber, and polychloroprene.

#### Respiratory Protection:

If an exposure level to a component exceeds an applicable standard, use a NIOSH-approved respirator of a class and configuration effective for

## SAFETY DATA SHEET 2256

Rev. 4, 25 September 2023

protection from the component(s) generated. Where exposures exceed the OSHA *Permissible Exposure Limit (PEL)*, an airline respirator or self-contained breathing apparatus (SCBA) is recommended. Consult OSHA regulations (29CFR1910.134) and/or American National Standard Z88.2 (ANSI, New York, NY 10036, USA) for guidance.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: cream-colored liquid	Lower Explosive Limit: not determined
Odor: aromatic	Upper Explosive Limit: not determined
Odor threshold: not determined	Vapor pressure: 4271 hPa@20°C (propellant)
pH: not applicable	Vapor density: not determined
Melting point: not determined.	Evaporation Rate: not determined
Freezing point: not determined	VOCs (per EPA Method 24): <5 g/L
Boiling point: not determined	Relative density (H <sub>2</sub> O): approx. 1.23
Boiling range: not applicable (aerosol)	Solubility (H <sub>2</sub> O): reactive
Flash Point: not applicable (aerosol)	Oil-water partition coefficient: not determined
Autoignition Point: not determined	Decomposition temperature: not determined
Flammability Class: not applicable (aerosol)	Viscosity: not determined

### 10. STABILITY AND REACTIVITY

Stability:	Stable
Reactivity:	May react with water and incompatible materials
Hazardous Polymerization:	May occur at temperatures >392°F./200°C.
Risk of Dangerous Reactions:	None reasonably foreseeable
Incompatible Materials:	Water, alcohols, acids, alkalis, and amines
Potential Decomposition Byproducts:	Carbon monoxide, carbon dioxide, nitrogen oxides, isocyanates, hydrogen cyanide, hydrogen fluoride, and carbonyl halides.

### 11. TOXICOLOGICAL INFORMATION

<u>Ingredients Toxicology Data</u>	<u>LD<sub>50</sub> Oral</u>	<u>LD<sub>50</sub> Dermal</u>	<u>LC<sub>50</sub></u>
4,4'-Methylenediphenyl Diisocyanate	>10,000 mg/kg (rat)	No data available	2.24 mg/l. for 1 hour (rat)
Diphenylmethane Diisocyanate, Isomers and Homologues	No data available	No data available	No data available
Trans-1,3,3,3-Tetrafluoroprop-1-ene	No data available	No data available	>207000 ppm/4h (rat)

Primary Route(s) of Entry: Inhalation; ingestion

Eye Hazards: This product may cause eye irritation.

Skin Hazards: This product may cause mild to moderate skin irritation and has the potential to cause skin sensitization among susceptible individuals.

## SAFETY DATA SHEET 2256

Rev. 4, 25 September 2023

Ingestion Hazards:	The product is nontoxic by ingestion, but ingestion may cause nausea, vomiting, and/or gastrointestinal irritation.
Inhalation Hazards:	Inhalation of toxicologically-significant quantities of ingredients is unlikely when the product is used in a well-ventilated area and in accordance with instructions.
Symptoms Related to Overexposure:	Inhalation overexposure to isocyanates may cause respiratory irritation, breathing difficulties, and asthma-like symptoms.
Delayed Effects from Long Term Overexposure:	Long-term inhalation overexposure to this product may result in respiratory damage, which may be irreversible.
Carcinogenicity:	A single inhalation study exposing rats to aerosolized polymeric 4,4'-Methylenediphenyl Diisocyanate identified a single malignant pulmonary tumor among sixty animals exposed at the highest exposure level. Observations of pulmonary fibrosis and other pathological anomalies in the test animals precluded definitive determination as to the cause(s) of the tumor. Epidemiological studies of humans occupationally exposed to the isocyanates in this product have found no strong association or consistent pattern with respect to carcinogenicity.
Germ Cell Mutagenicity:	No ingredients have been determined to be germ cell mutagens.
Reproductive Toxicity:	No ingredients have been determined to be damaging to fertility or to the unborn child.
Acute Toxicity Estimates:	LD <sub>50</sub> (oral): >10,000 mg/kg LD <sub>50</sub> (dermal): >9,400 mg/kg LC <sub>50</sub> : 2.24 mg/L/1 hr as aerosol
Interactive Effects of Components:	No data available

## 12. ECOLOGICAL INFORMATION

4,4'-Methylene-diphenyl Diisocyanate	Aquatic Toxicity to Fish: LC <sub>50</sub> >1,000 mg/l. for 96 h. (zebra fish) Aquatic Toxicity to Invertebrates: EC <sub>50</sub> >1,000 mg/l. for 24 h. (daphnia) Aquatic Toxicity to Plants: EC <sub>50</sub> >1,640 mg/l. for 72 h. (algae) Aquatic Toxicity to Microorganisms: EC <sub>50</sub> >100 mg/l. for 3 h. (bacteria) Toxicity to Terrestrial Organisms: EC <sub>No</sub> = 1,000 mg/kg for 14 d. (worms) No data available for Persistence and Degradability, Bioaccumulation Potential, or Mobility in Soil.
Diphenylmethane Diisocyanate, Isomers and homologues	No data available for Aquatic Toxicity to Fish, Invertebrates, Plants, or Microorganisms, Toxicity to Terrestrial Organisms, Persistence and Degradability, Bioaccumulation Potential, or Mobility in Soil.
Trans-1,3,3,3-Tetrafluoroprop-1-ene	Aquatic Toxicity to Fish: LC <sub>50</sub> >117 mg/l. for 96 h. (carp) Aquatic Toxicity to Invertebrates: EC <sub>50</sub> >160 mg/l. for 48 h. (daphnia) Aquatic Toxicity to Plants: EC <sub>50</sub> >170 mg/l. for 72 h. (algae)

## SAFETY DATA SHEET 2256

Rev. 4, 25 September 2023

Not readily biodegradable. No bioaccumulation is expected. No data available for Aquatic Toxicity to Microorganisms, Toxicity to Terrestrial Organisms, or Mobility in Soil.

Ozone Depletion  
Potential:

This product neither contains nor is manufactured with any ingredients known to deplete the ozone layer.

### 13. DISPOSAL CONSIDERATIONS

Do not discharge waste product into sanitary or storm sewers or allow it to contaminate soil. Empty containers should be decontaminated prior to disposal. Consult applicable Federal, State/Provincial, and local regulations.

### 14. TRANSPORTATION INFORMATION

Proper Shipping Name: Chemical Under Pressure, n.o.s.

(trans-1,3,3,3-Tetrafluoroprop-1-ene, Nitrogen)

Identification Number: UN3500

Hazard Class: 2.2

Packing Group: not applicable

### 15. REGULATORY INFORMATION

#### United States Regulatory Information

TSCA Information: All ingredients of this product are listed in the TSCA Registry.

SARA Hazard Classes: Refer to Section 2 for the OSHA Hazard Classification

EPCRA Section 313 Notification: This product contains these ingredients in concentrations  $\geq 1\%$  (for carcinogens  $\geq 0.1\%$ ) regulated under Section 313 of the *Emergency Planning and Community Right-To-Know Act* of 1986 or 40 CFR 372:

1. 4,4'-Methylenediphenyl Diisocyanate (CASRN 101-68-8)
2. Diphenylmethane Diisocyanate, Isomers and Homologues (CASRN 9016-87-9)

CERCLA Information: Under requirements of the *Comprehensive Environmental Response, Compensation, and Liability Act* (CERCLA), 4,4'-Methylene Bisphenyl Isocyanate (CASRN 101-68-8) has a *Reportable Quantity* of 5,000 lbs. Any spill or release above this *RQ* must be reported to the National Response Center (800-424-8802).

#### Canadian Regulatory Information

All ingredients in this product are listed in the Domestic Substances List (DSL) or the Nondomestic Substances List (NDSL).

This product has been classified in accordance with Canada's *Hazardous Products Regulations* (SOR/DORS/2015-15).

**16. OTHER INFORMATION**

Hazardous Materials Information System (HMIS III) Ratings (Legend):	<u>Health</u> 2* (moderate hazard, “*” indicating potential for chronic effects)	<u>Flammability</u> 0 (minimal hazard)	<u>Physical Hazard</u> 1 (slight hazard)	<u>PPE</u> See Note
--	--	--	--	---------------------------

Note regarding PPE: GAF recommends use of protective eyewear and skin protection (Personal Protection Index "B") as standard PPE for the anticipated conditions of use of this product. However, HMIS recommends that its ratings be used only in conjunction with a fully implemented HMIS program, and that specific PPE codes should be created by the user, who is familiar with the actual conditions under which the product is used. We cannot anticipate every condition of the product's use, and it is the user's responsibility to evaluate the hazards pertinent to its specific operations, and to determine the specific PPE required.

National Fire Protection Association (NFPA) Ratings:	<u>Health</u>	<u>Flammability</u> 0	<u>Reactivity</u> 2 1
